

LAP STYLE JOINT EXHAUST CLAMP

Durable clamping performance for pipes, flexible and mufflers.

DESCRIPTION

It offers a simple, effective way to connect exhaust system components. The pre-formed wideband exhaust clamp with step is designed for fast, easy and accurate installation. There is no need to separate pipes or exhaust members before clamping.

APPLICATION

- Exhaust manifold Pipe
- Exhaust Pipe
- Stepped Pipes

BENEFITS

Exclusive design makes for fast, easy and accurate installation
Causes no damaging distortion to pipe or flex.

Band is designed for maximum stretch providing tight take-up on pipe/pipe or pipe/flex applications
